-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 17-40 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1,5-7 and 9-24; claims 1,5-7 and 9-27 of copending Application No. 10/714,266; 10/714,837, respectively, which are allowed. Although the conflicting claims are not identical, they are not patentably distinct from each other because The only difference is the instant claims is a composition made by a process whereas the claims of 10/714,266 is a process for producing said composition and the claims of 10/714,837 is a composition only.

However, the composition and the steps of the processes in the applications are the same. Therefore, it would have been obvious to one of ordinary skill in the art to modify the claims of the references within the limitation of the instant claims to get the claimed composition of the same formula since they have been shown to be effective in

a similar system and thus would have been expected to provide adequate results. There is no showing of unexpected results derived from said use.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claims 17-40 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-29 and 40 of copending Application No. 10/714,387. Although the conflicting claims are not identical, they are not patentably distinct from each other because the only difference is the instant claim 17 is the combination of claims 1 and 3-5 of the reference. Therefore, it would have been obvious to one of ordinary skill in the art to combine claims 1 and 3-5 of the reference to get the instant claim 17 in the absence of a showing of unexpected results derived from said combination.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
